

Francesco Done'

Senior Frontend Engineer & Software Architect

Munich, Germany contact.francescodone@gmail.com linkedin.com/in/francescodone github.com/francescodone
francescodone.github.io

PROFESSIONAL SUMMARY

Senior frontend engineer and software architect experienced in enterprise digital platforms, scalable backend-for-frontend architecture, micro-frontends, server-side rendering, observability, reliability, and AI-driven product development. Proven cross-team technical leadership, including a migration involving more than 40 developers across six frontend teams. Recognised as Mercedes-Benz.io's Most Impactful Employee in both 2024 and 2025.

CORE SKILLS

Architecture:	Software Architecture, Backend-for-Frontend (BFF), Micro Frontends, SSR, AEM
Frontend:	TypeScript, JavaScript, Vue.js, React, HTML, CSS, Web Performance
AI & Data:	AI Agents, AG-UI, Generative Engine Optimization, PyTorch, Machine Learning, NLP
Platform:	Kubernetes, Terraform, Datadog, CI/CD, Observability, Error Budgets
Leadership:	Technical Leadership, Cross-team Delivery, Architecture Design, Scrum

PROFESSIONAL EXPERIENCE

Mercedes-Benz.io — Senior Frontend Engineer & Software Architect2023–Present

Munich, Germany

- Designed and implemented a scalable Backend-for-Frontend architecture for the Mercedes-Benz digital showroom.
- Led a Micro Frontend migration involving 40+ developers across six frontend teams.
- Led server-side rendering integration in a Vue 3 and Adobe Experience Manager environment.
- Reduced frontend bundle size by more than 80% and lowered Cumulative Layout Shift to near zero.
- Implemented frontend monitoring with Datadog and Terraform, enabling on-call operations across teams.
- Introduced error budget policies to align reliability targets with development velocity.
- Designed an AG-UI interface with custom AI agents and architected a Generative Engine Optimization data pipeline for vehicle discoverability across large language models.
- Recognised as Most Impactful Employee in 2024 and 2025.

Acolad Digital — Frontend Engineer2021–2023

Düsseldorf, Germany

- Built and maintained enterprise frontend experiences with Vue.js, TypeScript, Adobe Analytics, and CI/CD workflows in an international team.
- Earned the Adobe Analytics Developer Professional certification (AD0-E213).

IT Cube Consulting — Scrum Master & Software Engineer2021

Milan, Italy

- Combined software engineering delivery with Scrum facilitation while completing a master's degree in Computer Science.

Capgemini — Software Engineering Intern2019

Italy

Lovekaizen Creative Agency — Web Developer Intern2015

London, United Kingdom

- Built and maintained client websites using HTML, CSS, JavaScript, and WordPress.
- Worked with version control and deployment workflows in a professional agency environment.

EDUCATION

MSc Computer Science — University of Milan2019–2021

Grade: 106/110. Focus: Artificial Intelligence, AGI, Human-Computer Interaction, Reinforcement Learning, NLP, and Computer Vision.

Thesis: Analysis of recurrent models of visual attention with reinforcement learning.

Erasmus Exchange — University of Copenhagen**2020–2021**

Software Engineering and Artificial Intelligence in international research teams.

BSc Computer Science — University of Padua**2016–2019**

Grade: 97/110. Focus: Software Engineering, algorithms, data structures, operating systems, and database systems.

CERTIFICATIONS & RECOGNITION

- Most Impactful Employee — Mercedes-Benz.io, 2025
- Most Impactful Employee — Mercedes-Benz.io, 2024
- Goethe B1 Conversational German — Goethe-Institut, 2025
- Adobe Analytics Developer Professional (AD0-E213) — Adobe, 2022
- EFSET C2 Proficient English — EF, 2021

SELECTED PROJECTS

Portfolio

Scroll-driven editorial portfolio built with React, TypeScript, GSAP, and Framer Motion.

github.com/francescodone/francescodone.github.io

Visual Attention & Reinforcement Learning

Analysis of recurrent visual-attention models using Python, PyTorch, and reinforcement learning, connecting AI, HCI, and neuroscience.

Soldino

Decentralized micropayment application built with Node.js, React, Redux, Solidity, and Web3.
